NOVUS TSS column 545 with cable port attachment

The Tetra Support System is the adaptable innovation for the modern workplace and provides you with a wide range of individually tailored mounting options. Extremely versatile, this system comes in a quality that is second to none. The 545 mm long aluminium column (diameter of 51 mm) serves as a support column and can be fitted to any desktop in a thickness of 5-70 mm with standard cable port using the cable port mount. The four slots in the column will take up different supporting elements. Two cable clips are included as a practical aid for routing cables.

Cable port mount. This solution provides a sturdy mounting option in existing cable ports or between two desks, which are fixed with each other.

When used conventional.

This machine bears the GS approval of product safety.

Available in silver/ anthracite
